Summary

Product Design Leader with 15+ years of experience building scalable, user-centered digital products across B2B and B2C domains. I specialize in UX strategy, design systems, and developer-ready interfaces that translate seamlessly into production. I collaborate closely with product managers and engineering teams to solve complex product problems and create intuitive user experiences.

I also integrate AI thoughtfully into my workflow to accelerate research, exploration, and iteration while keeping product thinking and user empathy at the center.

With practical front- end fluency in HTML, CSS, Tailwind, JavaScript, and React, I collaborate deeply with engineering teams to translate design systems into reliable, production-ready components.

Core Skills

Product Design

- UX Strategy
- User Research
- Interaction Design
- Information Architecture
- Usability Testing

Systems & UI

- Design Systems
- Component Libraries
- Work Flows
- Prototyping
- Visual Design

Collaboration

- Cross functional Leadership
- Stakeholder Communication
- Product Thinking
- Presentation Skills
- Empathy and Active Listening

Tools & Technical

- Figma
- Miro,
- Adobe Suite
- HTML,CSS
- Tailwind, React

Professional Experience

Trianz

Lead, Sr Product Designer - 1 | Feb 2017 - Present | Hyderabad, India

- Lead end-to-end product design initiatives for enterprise platforms and digital products.
- Collaborate closely with product managers and engineering teams to define product strategy and UX direction.
- Conduct user research and usability evaluations to uncover usability issues and guide product improvements.
- Design scalable UI systems and reusable components that improve development efficiency and interface consistency.
- Translate product requirements into user flows, wireframes, prototypes, and high-fidelity interfaces.
- Ensure design solutions are developer- ready through clear documentation and cross-team collaboration.

ValueLabs

Sr UX/UI designer | May 2009 – Jan 2017 | Hyderabad, India

- Designed high-fidelity user interfaces, wireframes, and interactive prototypes for enterprise, web & mobile apps.
- Worked closely with product and engineering teams to deliver responsive and accessible digital experiences.
- Created visually engaging UI designs aligned with product requirements and brand guidelines.
- Developed responsive layouts optimized for multiple devices and screen sizes.

Eons India Private LTD

Web Designer | Jan 2008 - Apr 2009 | Hyderabad, India

- Designed website layouts and visual assets like logos and graphics for client websites.
- Converted design concepts into HTML and CSS based web pages.

AI Enabled Design Workflow

- Use ChatGPT and Perplexity for research synthesis, UX writing, and product insights.
- Use FigJam AI and Notion AI for brainstorming, documentation, and workflow organization.
- Apply AI to accelerate research, iteration, documentation, and design exploration.
- Use Galileo AI and Uizard for rapid interface and layout exploration.

Education & Certifications

Osmania University

Bachelor Degree in Maths - BSc

2003 - 2006

ARENA ANIMATIONS

Diploma in Creative Design

2006-2007

2025

Creativity: Methods to Design Better Products and Services
2025

Awards & Recognitions

Individual Excellence Spot Award (IESA)
Trianz Digital Consulting, Pvt, Ltd. - 2025

Best Visualizer - App Designs
ValueLabs- 2016

Passion

Writer

I do write articles about UX if i face interesting topics during the project. Six of my UX articles have been published on UX Planet.

kiran-yelligeti.medium.com/

Mentor

I help aspiring and experienced designers refine their skills, build strong portfolios, and navigate their careers with practical insights and hands-on guidance.

Guitarist

I play guitar to enhance my creativity, problem-solving skills, and overall well-being.

instagram.com/kiranyeligeti

Product design is the art of harmonizing functionality, aesthetics, and user experience to create solutions that not only meet needs but inspire delight and enrich lives.
